

Z Accumulation GBP | Data as at 31.03.2022

Fund objectives and investment policy

The Fund aims to provide capital growth in excess of the FTSE World Series Europe ex UK (Gross Total Return) Index (after fees have been deducted) over a three to five year period by investing in equity and equity related securities of European companies, excluding the UK, which meet the Investment Manager's sustainability criteria.

For details of the fund's investment policy please refer to the fund's Key Investor Information Document (KIID).

The Fund maintains a higher overall sustainability score than the FTSE World Series Europe ex UK (Gross Total Return) index, based on the Investment Manager's rating system.

Relevant risks associated with an investment in this fund are shown overleaf and should be carefully considered before making any investment.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Risk considerations

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Sustainability Risk Factor: The fund has environmental and/or social characteristics. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the investment manager. Therefore, the fund may underperform other funds that do not apply similar criteria. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Please see the KIID and Prospectus for a full list of risk considerations applicable to this fund.

Synthetic risk & reward indicator (SRII)

LOWER RISK Potentially lower reward **HIGHER RISK** Potentially higher reward

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed. Please see the Key Investor Information Document for more information.

Proprietary Sustainability Metrics %

Overall Impact

Data as at 31.03.2022

The sustainability scores of the fund and the benchmark are shown. The benchmark is the FTSE World Europe ex UK.

The Schroders Impact score is based on Schroders' proprietary tool, SustainEx™. SustainEx™ provides an estimate of the potential societal or environmental impact that may be created by the companies and other issuers in which the fund is invested. The result is expressed as a notional percentage (positive or negative) of sales of the relevant underlying companies and other issuers. For example, a SustainEx™ score of +2% would mean a company contributes \$2 of relative notional positive impact (i.e. benefits to society) per \$100 of sales.

We calculate SustainEx™ scores for companies and other issuers in the fund to arrive at the total fund score.

The "Overall Impact" shown is a measure of the fund's estimated impact compared to that of its benchmark, in each case calculated as a relative notional percentage as described above.

The "Impact on People" and "Impact on Planet" measure the fund's estimated underlying benefits and harms, as compared to its benchmark, in each case calculated as a relative notional percentage as described above.

Overall Impact On: People

Climate dashboard

Carbon Intensity

Tonnes of CO2 per \$mn sales

Fossil Fuel Exposures

Source: MSCI. Carbon Intensity is based on reported scope 1 & 2 emissions. Fossil Fuel Exposure charts for sub-funds apply a revenue-based exclusion on companies operating in the coal sector. Please refer to the fund prospectus for more details on exclusions. The fund's sustainability benchmark is FTSE World Europe ex UK.

Sustainability performance measures

The below table shows sustainability performance measures of this fund. It uses reported company data to identify or derive Environmental, Social and Governance (ESG) metrics on an objective basis. With this we compare a range of ESG metrics for the fund and its benchmark where applicable, and identify the measure coverage of the fund. The charts illustrate how the portfolio and benchmark compare for each metric.

Category	Measure	Description	Units	Fund	Benchmark
People	Policy Human Rights	Does the company publish a policy governing human rights standards of its operations	% of companies with a policy on human rights in place	100.0% Coverage: 96.0%	96.4% Coverage: 98.6%
	Board Gender Diversity	Percentage of women on the Board	% Average percentage of women on boards	35.0% Coverage: 93.1%	35.9% Coverage: 98.6%
	Employees Community Work Program	Is there a programme for employees to volunteer with community initiatives?	% of companies with Employees Community Work programmes in place	88.4% Coverage: 96.0%	90.0% Coverage: 98.6%
	Independent Board Members	Percentage of independent directors on the Board	% of total directors who are independent	71.0% Coverage: 93.1%	69.4% Coverage: 98.6%
	CEO-Chairman Separation	Are the CEO and Chairman separate roles?	% of companies with separate CEO and Chairman	68.9% Coverage: 96.0%	66.1% Coverage: 98.6%
Planet	Water Intensity	Water withdrawal relative to each \$1mn of sales	Cubic metres of water per \$mn sales	4,449.1 Coverage: 76.5%	18,129.9 Coverage: 80.3%
	Policy Energy Efficiency	Does the company publish a policy to improve energy efficiency?	% of companies with a policy on energy efficiency in place	96.9% Coverage: 96.0%	97.7% Coverage: 98.6%
	Policy Emissions Reduction	Does the company publish a policy to reduce GHG emissions?	% of companies with a policy on emission reduction in place	95.0% Coverage: 96.0%	97.6% Coverage: 98.6%

Source: Refinitiv as at 31.03.2022. The analysis shown is based on company disclosed information. Coverage is calculated based on the average weighted by holding percentage for each metric for the fund and benchmark. Coverage shows the % of company reported data that is available for each measure for the fund and the benchmark. The fund's sustainability benchmark is FTSE World Europe ex UK.

Information relating to changes in fund manager, investment objective, benchmark and corporate action information

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The fund's performance should be assessed against the target benchmark, being to exceed the FTSE World Series Europe ex UK (Gross Total Return) index, and compared against the Investment Association Europe ex UK sector average return. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark.

Benchmarks:

Scott MacLennan & Nicholette Macdonald-Brown replaced Martin Skanberg as Fund Manager for this fund on 15.12.2021

The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the benchmark. The investment manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

On 15.12.2021 the fund, previously named Schroder European Alpha Income Fund, changed its name to Schroder European Sustainable Equity Fund.

Source and ratings information

Source of all performance data, unless otherwise stated: Morningstar, bid to bid, net income reinvested, net of fees.

Schroders' Proprietary tools, including SustainEx, may not cover all of the fund's holdings from time to time, in which case Schroders may use a range of alternative methods to assess the relevant holding. In addition, certain types of assets (such as cash and certain equivalent securities) are treated as neutral and are therefore not considered by our proprietary tools. The SustainEx scores show month-end data. Where a fund maintains a higher overall sustainability score than its sustainability benchmark based on the investment manager's rating system, this means that the fund's weighted average score in SustainEx over the previous six month period will be higher than the benchmark's score in SustainEx over the same period, based on month-end data. Where a fund maintains a positive absolute sustainability score based on the investment manager's rating system, this means that the fund's weighted average score in SustainEx over the previous six month period will be higher than zero over the same period based on month-end data and any comparison to its benchmark's score is shown here for information and illustrative purposes only. Where a fund has different sustainability criteria, the fund's weighted average score in SustainEx compared to its benchmark's score is shown here for information and illustrative purposes only.

Impact scores: These are generated using Schroders' proprietary tool, SustainEx™, which provides an estimate of the potential social or environmental impact that a company or other issuer may create. It does this by using certain metrics with respect to that issuer and quantifying the positive and negative impacts of each of those metrics in economic terms to produce an aggregate measure. Not all of those metrics are represented in the impact scores on 'People' and 'Planet' and how those scores are generated may change over time. It utilises and is reliant on third party data (including third party estimates) as well as Schroders' own modelling assumptions, and the outcome differs from other sustainability tools and measures. Where SustainEx™ relies on data and estimates produced by third parties, Schroders seeks to ensure that such data and estimates are accurate, but Schroders cannot and does not warrant the accuracy, completeness and adequacy of such third party data and estimates. Like any model, SustainEx™ will evolve and develop over time as Schroders continues to assess, refine and add to the metrics and their relative contributions. Generating SustainEx™ scores involves an element of judgment and subjectivity across the different metrics chosen by Schroders, and accordingly Schroders does not accept any liability arising from any inaccuracy or omission in, or the use of or reliance on, SustainEx™ scores. As the model evolves, changes made to how metrics are applied may result in changes to the SustainEx™ score of any issuer and ultimately the overall fund/portfolio score. At the same time, of course, the issuer's SustainEx performance might improve or deteriorate.

MSCI ESG Research rating: Produced by MSCI ESG Research as of the "reporting date". Important information

Costs

Certain costs associated with your investment in the fund may be incurred in a different currency to that of your investment. These costs may increase or decrease as a result of currency and exchange rate fluctuations.

If a performance fee is applicable to this fund, details of the performance fee model and its computation methodology can be found in the fund's prospectus. This includes a description of the performance fee calculation methodology, the dates on which the performance fee is paid and details of how the performance fee is calculated in relation to the fund's performance fee benchmark, which may differ from the benchmark in the fund's investment objective or investment policy.

For further information regarding the costs and charges associated with your investment, please consult the funds' offering documents and annual report.
