Fund objectives and investment policy

The fund aims to provide capital growth in excess of Standard & Poor's 500 (Net Total Return) index (after fees have been deducted) over a 3 to 5 year period by investing in equities of companies in the United States and Canada.

For details of the fund's investment policy please refer to the fund's Key Investor Information Document (KIID).

Relevant risks associated with an investment in this fund are shown overleaf and should be carefully considered before making any investment.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Information relating to changes in fund manager, investment objective, benchmark and corporate action information

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The fund's performance should be assessed against its constraining benchmark being the Standard & Poor's 500 (Net Total Return) index. The investment manager is limited to investing with reference to the composition of the benchmark. Where a fund states that it will typically be within a certain percentage of specific weightings (e.g. sector or security) of a particular benchmark, the investment manager does not actively take the fund outside of such a percentage and if the fund moves passively out side of a percentage the investment manager looks to bring the fund back in line with the percentage at the next appropriate occasion, provided the investment manager believes this to be in the best interests of investors. On 01.11.2009 the S&P500 Net TR replaced the FTSE North American TR Index. The full track record of the previous index has been kept and chainlinked to the new one. Prior to 01.01.2010 index data has been sourced from Bloomberg and therefore uses the Bloomberg FX rates for conversion.

Benchmarks:

The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the benchmark. The investment manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

Please note that this fund changed its name from US Quantitative Core Equity Fund to QEP US Core Fund with effect from 18.04.2008.

Important information

Costs

Certain costs associated with your investment in the fund may be incurred in a different currency to that of your investment. These costs may increase or decrease as a result of currency and exchange rate fluctuations.

If a performance fee is applicable to this fund, details of the performance fee model and its computation methodology can be found in the fund's prospectus. This includes a description of the performance fee calculation methodology, the dates on which the performance fee is paid and details of how the performance fee is calculated in relation to the fund's performance fee benchmark, which may differ from the benchmark in the fund's investment objective or investment policy.

For further information regarding the costs and charges associated with your investment, please consult the funds' offering documents and annual report.
